

Declaration of Conformity

EC Regulation 1907/2006/CE
"REACH"

METAL WORK S.p.A.
Via Segni 5
25062 Concesio(BS)
ITALIA

With reference to EC regulation

1907/2006/CE
OF THE EUROPEAN PARLIAMENT AND COMMITTEE
Regarding the registration, evaluation, authorization and restriction of chemicals (REACH)

hereby declares that:

- The company only converts substances contained in finished or unfinished products purchased from suppliers.
- The only added substances that could hypothetically come under those to be registered (painting products) are processed in quantities well below 1 tonne a year and in concentrations below 0.1% by weight of product; therefore these substances are exempt from pre-registration. In compliance with the provisions of article 7, subsection 1, of the Regulation, these substances are not subject to any obligations.
- The survey we conducted with all our suppliers in order to verify their position regarding REACH regulations enabled us to ascertain that our major suppliers have stated their compliance with REACH or have implemented a REACH project.
- Consequently, **our customers are not required to register any substances** in connection with our products.
- What written is valid for the substances listed in the ECHA website up to this day.

Concesio, December 2010
Product Manager

A handwritten signature in black ink, appearing to read 'Giorgio Guzzoni'.
